FOCUS:
Professional Reputation

The editors of Fashion magazine recommend VISAGE Clinic to their readers.

Dr. Marc DuPéré
179 John St. (416-929-9800)
visageclinic.ca. DuPéré spent last fall in Paris learning new techniques from some of the best surgeons. This spring, he moved his Yorkville clinic downtown to Queen and John, and incorporated a more relaxed, loftlike environment. His two other locations are in Mississauga (50 Burnhamthorpe Rd. W., Suite 343) and East York (Toronto East General Hospital).

CITY DESK ■ FOCUS

Here in Canada, many of the women who have had the procedure enjoy better organic response after surgery. He will give discounts for those who are financially strapped, but in desperate need of his services.

THE TORONTO LASER & VEIN CLINIC
Dr. K. Shwartz, along with Dr. L.A. Marzig and Jane Bajak, 2401 Bonge St., Suite 200 (416-815-3100), 716c Yonge and Eginton clinic offers most cosmetic procedures: laser hair removal, Botox and Restylane, microdermabrasion, peels and, of course, blood vessel and vein removal.

THE URBAN COSMETIC SURGERY CENTRE
Dr. Martin Unger, 66 Avenue Rd., Concourse Level, Suite 1 (416-966-8888). This clinic could be called Hair Transplants & Us (Unger is an expert in the field), although you can get facial contouring, implants, nose, lips and more. Clients have included Mayer Mitelman, Michael Keaton and J.D. Roberts. Hair transplants: \$4,000 to \$30,000.

VISAGE CLINIC
Dr. Marc DuPéré, 179 John St. (416-929-9800) visageclinic.ca. DuPéré spent last fall in Paris learning new techniques from some of the best surgeons. This spring, he moved his Yorkville clinic downtown to Queen and John, and incorporated a more relaxed, loftlike environment. His two other locations are in Mississauga (50 Burnhamthorpe Rd. W., Suite 343) and East York (Toronto East General Hospital).

YORKVILLE VEIN CLINIC
1240 Bay St., Suite 404 (416-927-0533). Finally, I can tell you about my exciting surgery! I have been to three guys twice in the last 10 years to get two broken blood vessels on my face stopped and both times I have been totally satisfied. Often more than one session is needed, but I didn't need it. And even I can't see any scarring.

WORTH THE DRIVE

BRAMPTON COSMETIC DERMATOLOGY & LASER CLINIC
Dr. Robert Steigenthaler, 143 Queen St. E., Suite 400, Burlington (905-453-5855 or 477-66-LASER) bccosmetology.com. Privacy and comfort are key words here. The full list of surgeries, procedures and non-surgical services are available, including a wide range of skin-care programs like Nu Derm, Physicians' Choice, Skin Medica and Cyberch.

THE CENTRE FOR PERMANENT SMOOTHY
Dr. Otto Weiglein, 520 Louisa St., Burlington (905-644-5572) zimmerliacanada.com. Specializing in breast, Weiglein's clinic is the leading provider of cohesive gel implants in Canada. No hospital stay is necessary as this 15-year veteran just expanded his facility. With post-graduate training in reconstructive microsurgery (reconnection of blood vessels some 1 mm in diameter), I'm thinking Weiglein has a very steady hand. He also has the full range of procedures, including OBAGI's comprehensive skin-health anti-aging program.

THE HAMILTON PLASTIC SURGERY CENTRE
Dr. Robert S. Patterson, 14 Duke St., Suite 101, Hamilton (905-572-1979 or 818-461-7775) plasticsurgerycan.com. You'll find all the cosmetic plastic surgeries here. An added bonus is that it carries Daxifin skin-care products.

INSTITUTE OF COSMETIC AND LASER SURGERY
1344 Cornwall Rd., Suite 100, Oakville (905-842-2242 or 800-417-3877) lasersurgery.on.ca. Dr. Julia Khouris and Dr. Shweta Sagar. This institution has moved and expanded its size and services. Now there is the Sanctuary Medspa (hair salon, many aesthetic services including Endermologie, Dr. Nandy, a cosmetic dentist, and a pharmacy) all within the

I like it easy

New VEET™ Gel-Wax Strips keep you smooth for up to 3 weeks with no tools or preparation.
